

Report of the Police and Crime Commissioner for the Performance Scrutiny Panel 14th August 2014

**Executive & Presenting Officer:
Sarah Wilson - Governance Officer (Consultation and Engagement)**

Status: For Noting

Consultation Report

1. Purpose of the Report

- 1.1 Both the Force and Police and Crime Commissioner (PCC) have a clear duty to consult with local communities as set out in several pieces of legislation. Duties which were previously placed upon Police Authorities have been transferred to the PCC. The Police Reform and Social Responsibility Act expands upon these duties, stating that the PCC has a duty to make arrangements for obtaining:
- the views of victims of crime in that area about matters concerning the policing of the area
 - before a police and crime plan is issued, the views of the people in that police area, and the views of the victims of crime in that area, on that plan
 - the views of the people in that police area, and the relevant ratepayers' representatives, on the proposals of the police and crime commissioner for expenditure in that financial year
- 1.2 In addition the Act places a duty on the Chief Constable to make arrangements for:
- obtaining the views of persons within each neighbourhood in the relevant police area about crime and disorder in that neighbourhood
 - providing persons within each neighbourhood in the relevant police area with information about policing in that neighbourhood
 - the holding in each neighbourhood of regular police and community ward meetings
- 1.3 This report details the results of consultation undertaken by the PCC and Force during the last 12 months.

2. Executive Summary

- 2.1 Neighbourhood Policing teams hold public meetings in all of Cleveland's 82 wards to assist in setting neighbourhood priorities. By far the most common issue raised is antisocial behaviour, predominantly in the form of underage drinking and groups congregating, especially around shops and in open areas such as parks. Drugs are also raised as a concern across all four Local Policing Areas.
- 2.2 Off road motorbikes are a concern across all areas, but particularly in Redcar and Cleveland and theft is a particular concern across Stockton.
- 2.3 Other commonly raised issues are criminal damage and vehicle offences, namely problem parking, usually around schools, and speeding.
- 2.4 The priorities generally focus on anti-social behaviour and low level criminal offences. More serious offences mentioned are prostitution in Middlesbrough and Stockton and domestic burglary in Stockton.
- 2.5 More strategic issues tended to be raised with the PCC at meetings he attended, with the main area of focus being concern around neighbourhood policing numbers, with many communities feeling that they were receiving a reduced neighbourhood policing service with more abstractions from neighbourhoods and reduced staffing numbers. There was particular concern in areas where PCSO numbers were being reduced and in quieter rural areas where crime rates are low. There was concern from some residents meetings that neighbourhood officers no longer attended local meetings and that there was generally reduced engagement between the police and the local community.
- 2.6 Communities also raised concerns around the amount of focus on retail areas which they felt was to the detriment of policing in local residential communities.
- 2.7 Slow response times, particularly regarding reports of antisocial behaviour and drugs were reported in several areas.
- 2.8 There was considerable concern regarding the impact of budget cuts on neighbourhood policing and on other front line resources.
- 2.9 There was some concern over the non emergency 101 number with issues reported of phones not being answered at weekends and of a lack of feedback when reporting incidents. Communities were sometimes confused as to which non emergency number they should use when reporting incidents.
- 2.10 Public confidence in policing, as measured through the Local Public Confidence Survey, had fallen in all areas when compared to the previous year's survey results. Those surveyed this year were less likely to have confidence in the police within their local area, less likely to feel that the police did a good or excellent job and less likely to feel that they were dealing with local concerns.

- 2.11 The percentage of people who felt that there was a high level of antisocial behaviour or a high level of drug dealing and use in their area had risen, as had the proportion of people who felt that their quality of life was affected by fear of crime.
- 2.12 Confidence in the police's ability to deal with local concerns, as measured through the Crime Survey for England and Wales (CSEW) had fallen compared to the previous reporting period, although confidence in the multi agency ability to deal with issues had risen slightly. People were also more likely to feel that the police in their local area were doing a good or excellent job.
- 2.13 For all CSEW confidence questions, Cleveland rates below the Most Similar Group (MSG) average and for the key confidence question relating to multi agency response to local concerns, Cleveland now ranks 20th in the country, when in previous years the ranking was consistently in the top three forces in the country for this measure.
- 2.14 Victim satisfaction as measured through Victim Satisfaction Surveys had risen for all measures, with the exception of a slight fall regarding ease of contact, however, despite these improvements Cleveland remains below the Most Similar Group average for all measures, ranking bottom of its group in the area of follow up.

3 Overall Consultation Results

3.1 Neighbourhood Ward Priorities

- 3.2 Neighbourhood Policing Teams hold a series of regular meetings with their local communities. These range from structured meetings such as Community Councils, which may also involve other partner agencies, to more informal drop-ins and ward surgeries.
- 3.3 Each Neighbourhood Policing Team establishes a set of up to three local ward priorities, which are reviewed and updated regularly. Under the original Neighbourhood Policing structure these priorities were to be established solely based on public consultation through ward meetings, but due to low attendance at meetings in many areas, the priorities now reflect both the opinions of the public and officer knowledge of the local area.
- 3.4 Details of the current ward priorities for all 82 Cleveland wards are at Appendix 1. By far the most common issue raised is anti-social behaviour, predominantly in the form of underage drinking and groups congregating, especially around shops and in open areas such as parks. Drugs are also raised as a concern across all four Local Policing Areas.
- 3.5 Off road motorbikes are a concern across all areas, but particularly in Redcar and Cleveland, and theft is a particular concern across Stockton.

- 3.6 Other commonly raised issues are criminal damage and vehicle offences, namely problem parking, usually around schools, and speeding.
- 3.7 The priorities generally focus on anti-social behaviour and low level criminal offences. More serious offences mentioned are prostitution in Middlesbrough and Stockton and domestic burglary in Stockton.
- 3.8 Many of the priorities across all four Local Policing Areas remain the same since the last report.
- 3.9 Your Force Your Voice
- 3.10 The PCC has made a commitment to visit neighbourhood meetings in all 82 ward areas across Cleveland on an annual basis, in an initiative entitled 'Your Force Your Voice'. Details of the issues raised at each meeting attended are at Appendix 2
- 3.11 Both Middlesbrough and Redcar and Cleveland have structured multi agency community meetings at a ward level which the PCC has attended – Community Councils and Neighbourhood Action Partnerships respectively. Within Hartlepool and Stockton the meetings have tended to be established residents meeting which the integrated Neighbourhood Teams attend when they are available.
- 3.12 The PCC has visited several colleges, attended a primary school conference and visited the Force cadet units to hear the views of young people, and has also met with over 50s Forums and visit sheltered accommodation to hear the concerns of the elderly. Engagement with minority groups has been undertaken covering disability, rural communities, refugees and asylum seekers and lesbian, gay, bisexual and transgender communities.
- 3.13 Issues raised at the 'Your Force Your Voice' meetings are split between localised issues, as highlighted through the Neighbourhood Policing Meetings, and more strategic issues which the community have wished to raise with the PCC. Where localised issues were raised these were generally dealt with at the meeting by the neighbourhood officers present. Any issues not dealt with at meeting were directed to the police for action following the meetings.
- 3.14 The most commonly raised strategic issue was concern around neighbourhood policing numbers, with many communities feeling that they were receiving a reduced neighbourhood policing service with more abstractions from neighbourhoods and reduced staffing numbers. There was particular concern in areas where PCSO numbers were being reduced and in quieter rural areas where crime rates are low. There was concern from some residents meetings that neighbourhood officers no longer attended local meetings and that there was generally reduced engagement between the police and the local community.

- 3.15 Communities also raised concerns around the amount of focus on retail areas which they felt was to the detriment of policing in their local residential communities.
- 3.16 Slow response times, particularly regarding reports of antisocial behaviour and drugs were reported in several areas.
- 3.17 Concern was raised regarding the impact of budget cuts on neighbourhood policing and on other front line resources.
- 3.18 Another commonly raised issue was the perception of police corruption following Operation Sacristy, and the steps being taken to ensure the future integrity of those working within Cleveland Police.
- 3.19 Issues were raised in several meetings around a reduction in information received through Neighbourhood Watch.
- 3.20 There was interest in specific police initiatives including the recruitment of police constables and the relocation of Force Headquarters from Ladgate Lane.
- 3.21 There was some concern over the non emergency 101 number with issues reported of phones not being answered at weekends and of a lack of feedback after reporting incidents. Communities were sometimes confused as to which non emergency number they should use when reporting incidents.
- 3.22 The community issues raised varied greatly, covering speeding, problematic parking, especially around schools, off road bikes, anti-social behaviour, including youth nuisance and problem tenants, drug dealing and criminal damage. In general the community issues raised were already neighbourhood policing priorities, or failing this the police were aware and were undertaking actions to resolve.
- 3.23 Local Public Confidence Survey
- 3.24 The Local Public Confidence Survey (LPCS) is a joint PCC and Force survey which is conducted via telephone interview by a third party independent market research company. The aim of the survey is to measure public confidence and to understand the factors associated with it.
- 3.25 A total of 2400 interviews are conducted each year on a rolling basis, providing a statistically significant and representative baseline sample from each of the four policing districts.
- 3.26 When comparing interviews conducted between July 2013 and June 2014 with the previous year there has been a reduction of public confidence in all areas. Those surveyed in the last year were less likely to have confidence in the police within their local area, less likely to feel that the police did a good or excellent job and less likely to feel they were dealing with local concerns.

3.27 The percentage of people who felt that there was a high level of antisocial behaviour or a high level of drug dealing and use in their area had risen, as had the proportion of people who felt that their quality of life was affected by fear of crime.

3.28 The table below shows further details of the results of LPCS:

	12 months ending June 2014	12 months ending June 2013	Difference (% points)
Public Confidence	84.3%	86.3%	-2.0%
Good/Excellent Job	65.0%	66.9%	-2.0%
Dealing with local concerns	69.8%	73.9%	-4.1%
Fear of crime & quality of life	17.3%	14.8%	+2.5%
Perceptions (ASB)	6.8%	3.8%	+3.1%
Perceptions (drug dealing/use)	15.7%	13.3%	+2.4%

3.29 Crime Survey for England and Wales

3.30 The Crime Survey for England and Wales is a national face to face survey which asks people about crimes they have experienced in the last 12 months, their perception of crime, their quality of life and the services delivered by the Criminal Justice System. Results are available at Force level only.

3.31 The survey collects information about:

- the victims of crime
- the circumstances in which incidents occur
- the behaviour of offenders in committing crimes

3.32 The survey is also an important source of information about other topics, such as people's perceptions of anti-social behaviour, attitudes towards the criminal justice system, including the police and the courts and fear of crime.

3.33 CSEW interviews are conducted on a rolling 12 months basis, with the latest results available dating back to March 2014. Many of the questions asked in LPCS are the same as those asked in CSEW, however as the methodologies used differ direct comparisons cannot be made.

3.34 Confidence in the police's ability to deal with local concerns, as measured through CSEW has fallen compared to the previous reporting period, although confidence in the multi agency ability to deal with issues has risen slightly. People were also more likely to feel that the police in their local area were doing a good or excellent job.

3.35 For all confidence questions Cleveland rates below the Most Similar Group average, and for the key confidence question relating to multi agency response to local concerns, Cleveland ranks 20th in the country, when in previous years the ranking was consistently in the top three. The table below shows further details of the results of CSEW:

	12 months to March 2014	12 months to March 2013	Diff (% pts)	MSG Average	Diff (% pts)	MSG Rank	National Position
Good/Excellent Job	60.4%	59.3%	+1.1%	61.7%	-1.3%	5	28
Dealing local concerns – police and agencies	60.3%	59.2%	+1.1%	59.4%	-0.9%	3	20
Dealing local concerns – police	59.0%	63.6%	-4.6%	61.8%	-2.8%	6	31

3.36 Victim Satisfaction Surveys

3.37 Victim Satisfaction Surveys are carried out by every Force as part of the Home Office performance requirements.

3.38 The surveys are conducted via telephone interview, with a mandatory framework of core questions, covering:

- Satisfaction with the whole experience (i.e. the overall service provided)
- Satisfaction with:
 - First contact – making contact with the police
 - Action taken by the police
 - Follow-up – being kept informed of progress
 - Treatment by staff

3.39 The surveys are conducted by a third party independent market research company, and cover victims of five specific crime types - domestic burglary, vehicle crime, violent crime, racist incidents and road traffic collisions.

3.40 With the exception of ease of contact, there has been an improvement in victim satisfaction for all measures in the latest survey results, with the highest rise being in the area of follow up, although this still remains by far the lowest area of confidence.

3.41 Despite these improvements in confidence, the Force remains below the Most Similar Group average for all measures, ranking bottom of its group in the area of follow up. The table below shows further details of the results of Victim Satisfaction Surveys:

	12 months ending June 2014	12 months ending June 2013	Diff (% pts)	MSG Average	Diff (% pts)	MSG Rank	National Position
Whole experience	84.3%	83.3%	+1.0%	86.8%	-2.5%	5	28
Ease of contact	96.4%	96.6%	-0.2%	96.8%	-0.4%	4	15
Actions	82.7%	81.6%	+1.0%	83.1%	-0.4%	4	24
Follow up	72.9%	71.2%	+1.7%	79.0%	-6.1%	6	34
Treatment	92.6%	91.2%	+1.3%	94.8%	-2.2%	5	35
