

## **Report of the Police and Crime Commissioner for the Performance Scrutiny Panel 30<sup>th</sup> January 2015**

**Executive & Presenting Officer:  
Sarah Wilson - Governance Officer (Consultation and Engagement)**

**Status: For Noting**

### **Consultation Report**

#### **1. Purpose of the Report**

- 1.1 Both the Force and Police and Crime Commissioner (PCC) have a clear duty to consult with local communities as set out in several pieces of legislation. Duties which were previously placed upon Police Authorities have been transferred to the PCC. The Police Reform and Social Responsibility Act expands upon these duties, stating that the PCC has a duty to make arrangements for obtaining:
- the views of victims of crime in that area about matters concerning the policing of the area
  - before a police and crime plan is issued, the views of the people in that police area, and the views of the victims of crime in that area, on that plan
  - the views of the people in that police area, and the relevant ratepayers' representatives, on the proposals of the police and crime commissioner for expenditure in that financial year
- 1.2 In addition the Act places a duty on the Chief Constable to make arrangements for:
- obtaining the views of persons within each neighbourhood in the relevant police area about crime and disorder in that neighbourhood
  - providing persons within each neighbourhood in the relevant police area with information about policing in that neighbourhood
  - the holding in each neighbourhood of regular police and community ward meetings
- 1.3 This report details the results of consultation undertaken by the PCC and Force during the last 12 months.

## **2. Executive Summary**

- 2.1 Integrated Neighbourhood Teams hold public meetings in all of Cleveland's 82 wards to assist in setting neighbourhood priorities. By far the most common issue raised is antisocial behaviour, predominantly in the form of underage drinking and groups congregating, especially around shops and in open areas such as parks. Drugs are also raised as a concern across all four Local Policing Areas.
- 2.2 Off road motorbikes are a particular concern in Redcar and Cleveland, and theft is a particular concern across Stockton.
- 2.3 Other commonly raised concerns are traffic issues such as speeding and inconsiderate parking and criminal damage.
- 2.4 The priorities generally focus on antisocial behaviour and low level criminal offences. More serious offences mentioned are prostitution in Middlesbrough and Stockton and domestic burglary in Redcar and Cleveland and Stockton.
- 2.5 More strategic issues tended to be raised with the PCC at meetings he attended, with the main area of focus being concern around neighbourhood policing numbers, with many communities feeling that they were receiving a reduced neighbourhood policing service with more abstractions from neighbourhoods and reduced staffing numbers. This was particularly apparent in rural areas and in Hartlepool. Many residents felt that neighbourhood teams were now acting as a 'second tier response' and that engagement with local communities had reduced as a result of this. Diversionary and preventative work with young people was seen to have reduced, and slow response times were also mentioned as a concern, particularly around antisocial behaviour and drugs.
- 2.6 Some residential communities felt that there was too much focus on retail areas to the detriment of their local communities. This was particularly apparent in Hartlepool.
- 2.7 Considerable concern was raised regarding the impact of budget cuts on neighbourhood policing and on other front line resources, particularly where this has led to the closure of buildings or the disbanding of services.
- 2.8 The rural community within the East Cleveland area of Redcar and Cleveland were particularly concerned by antisocial use of off road vehicles, leading to the damage of property and livestock. Multi agency work is ongoing, led by the Police and Crime Commissioner, looking at restricting access to specific rural areas to off road vehicles.
- 2.9 Public confidence in policing, as measured through the Local Public Confidence Survey, had fallen in most areas when compared to the previous year's survey results. Those surveyed this year were less likely to have confidence in the police within their local area and less likely to feel that the police were dealing with local concerns, although they were slightly more likely to feel that the police were doing a good or excellent job.

- 2.10 The percentage of people who felt that there was a high level of antisocial behaviour or a high level of drug dealing and use in their area had risen, as had the proportion of people who felt that their quality of life was affected by fear of crime.
- 2.11 Confidence in policing and other community safety services, as measured through the Crime Survey for England and Wales had fallen compared to the previous reporting period, with respondents less likely to feel that the police are dealing with local concerns, less likely to feel that multi agency working is successfully dealing with local concerns and less likely to feel that the police in their local area are doing a good or excellent job.
- 2.12 For two of the confidence questions Cleveland rates below the Most Similar Group average, although for the key confidence question relating to multi agency response to local concerns, Cleveland's position had risen slightly to 22<sup>nd</sup> in the country, ranking slightly higher than the Most Similar Group average. This still falls well below previous years when Cleveland consistently ranked in the top three forces in the country.
- 2.13 Victim satisfaction as measured through Victim Satisfaction Surveys had fallen for all measures, with significant reductions in confidence with the whole victim experience and in the follow up actions taken by officers. Cleveland remains below the Most Similar Group average for all measures, ranking bottom of its group in the areas of follow up, treatment by officers and staff and confidence in the whole victim experience.

### **3 Overall Consultation Results**

#### **3.1 Neighbourhood Ward Priorities**

- 3.2 Integrated Neighbourhood Teams hold a series of regular meetings with their local communities. These range from structured meetings such as Community Councils, which may also involve other partner agencies, to more informal drop-ins and ward surgeries.
- 3.3 Each Integrated Neighbourhood Team establishes a set of local ward priorities, which are reviewed and updated regularly. The priorities reflect both the opinions of the public, as gathered through engagement meetings, together with officer knowledge of the local area.
- 3.4 Details of the current ward priorities for all 82 Cleveland wards are at Appendix 1. By far the most common issue raised is antisocial behaviour, predominantly in the form of underage drinking and groups congregating, especially around shops and in open areas such as parks. Drugs are also raised as a concern across all four Local Policing Areas.

- 3.5 Off road motorbikes are a particular concern in Redcar and Cleveland, and theft is a particular concern across Stockton.
- 3.6 Other commonly raised concerns are traffic issues such as speeding and inconsiderate parking and criminal damage.
- 3.7 The priorities generally focus on antisocial behaviour and low level criminal offences. More serious offences mentioned are prostitution in Middlesbrough and Stockton and domestic burglary in Redcar and Cleveland and Stockton.
- 3.8 Most of the priorities remain the same since the last report, with the exception of Middlesbrough Local Policing Area which has a large quantity of new priorities this quarter. This may reflect the fact that most wards in Middlesbrough have moved towards a single priority, rather than having multiple priorities.
- 3.9 Your Force Your Voice
- 3.10 The PCC has made a commitment to visit neighbourhood meetings in all 82 ward areas across Cleveland on an annual basis, in an initiative entitled 'Your Force Your Voice'. Details of the issues raised at each meeting attended are at Appendix 2
- 3.11 Both Middlesbrough and Redcar and Cleveland have structured multi agency community meetings at a ward level which the PCC has attended – Community Councils and Neighbourhood Action Partnerships respectively. Within Hartlepool and Stockton the meetings have tended to be established residents meeting which the Integrated Neighbourhood Teams attend when they are available.
- 3.12 The PCC has visited several colleges and schools, together with visiting the Force cadet units to hear the views of young people, and has also met with over 50s Forums and visited sheltered accommodation to hear the concerns of the elderly. Engagement with minority groups has been undertaken covering disability, rural communities, refugees and asylum seekers and lesbian, gay, bisexual and transgender communities.
- 3.13 Issues raised at the 'Your Force Your Voice' meetings are split between localised issues, as highlighted through the police ward meetings, and more strategic issues which the community have wished to raise with the PCC. Where localised issues were raised these were generally dealt with at the meeting by the neighbourhood officers present. Any issues not dealt with at the meeting were directed to the police for action following the meetings.
- 3.14 The most commonly raised strategic issue was concern around neighbourhood policing numbers, with many communities feeling that they were receiving a reduced neighbourhood policing service with more abstractions from neighbourhoods and reduced staffing numbers. This was particularly apparent in rural areas and in Hartlepool. Many residents felt that neighbourhood teams were now acting as a 'second tier response' and that engagement with local communities had reduced as a result of this. Diversionary and preventative work with young people was seen to have

reduced, and slow response times were also mentioned as a concern, particularly around antisocial behaviour and drugs.

- 3.15 Some residential communities felt that there was too much focus on retail areas to the detriment of their local communities. This was particularly apparent in Hartlepool.
- 3.16 Concern was raised regarding the impact of budget cuts on neighbourhood policing and on other front line resources, particularly where this has led to the closure of buildings or the disbanding of services.
- 3.17 Issues were raised in several meetings around a reduction in information received through Neighbourhood Watch, particularly in the Redcar and Cleveland area.
- 3.18 There was interest in specific police initiatives including the recruitment of police constables and the relocation of Force Headquarters from Ladgate Lane. The public were generally supportive of the introduction of Restorative Justice.
- 3.19 There was some concern over the non emergency 101 number with issues reported of phones not being answered at weekends and concern as to the cost of calls.
- 3.20 The community issues raised varied greatly, covering speeding, problematic parking, especially around schools, off road bikes, antisocial behaviour, including youth nuisance and problem tenants, drug dealing and criminal damage. In general the community issues raised were already neighbourhood policing priorities, or failing this the police were aware and were undertaking actions to resolve.
- 3.21 The rural community within the East Cleveland area of Redcar and Cleveland were particularly concerned by antisocial use of off road vehicles, leading to the damage of property and livestock. Multi agency work is ongoing, led by the Police and Crime Commissioner, looking at restricting access to specific rural areas to off road vehicles.
- 3.22 Local Public Confidence Survey
- 3.23 The Local Public Confidence Survey (LPCS) is a joint PCC and Force survey which is conducted via telephone interview by a third party independent market research company. The aim of the survey is to measure public confidence and to understand the factors associated with it.
- 3.24 A total of 2400 interviews are conducted each year on a rolling basis, providing a statistically significant and representative baseline sample from each of the four Local Policing Areas.
- 3.25 When comparing interviews conducted between January and December 2014 with the previous year there has been a reduction in public confidence in most areas. Those surveyed in the last year were less likely to have confidence in the police within their local area and less likely to feel that the police were dealing with local concerns,

although they were slightly more likely to feel that the police were doing a good or excellent job.

- 3.26 The percentage of people who felt that there was a high level of antisocial behaviour or a high level of drug dealing and use in their area had risen, as had the proportion of people who felt that their quality of life was affected by fear of crime.
- 3.27 The table below shows further details of the results of LPCS:

	<b>12 months ending Dec 2014</b>	<b>12 months ending Dec 2013</b>	<b>Difference (% points)</b>
Public Confidence	84.2%	84.7%	-0.5
Good/Excellent Job	65.3%	63.7%	+1.6
Dealing with local concerns	69.1%	72.0%	-2.9
Fear of crime & quality of life	16.0%	16.9%	-0.9
Perceptions (ASB)	5.9%	5.6%	+0.4
Perceptions (drug dealing/use)	15.7%	15.1%	+0.5

### 3.28 Crime Survey for England and Wales

- 3.29 The Crime Survey for England and Wales is a national face to face survey which asks people about crimes they have experienced in the last 12 months, their perception of crime, their quality of life and the services delivered by the Criminal Justice System. Results are available at Force level only.
- 3.30 The survey collects information about:
- the victims of crime
  - the circumstances in which incidents occur
  - the behaviour of offenders in committing crimes
- 3.31 The survey is also an important source of information about other topics, such as people’s perceptions of antisocial behaviour, attitudes towards the criminal justice system, including the police and the courts and fear of crime.
- 3.32 CSEW interviews are conducted on a rolling 12 months basis, with the latest results available dating back to June 2014. Many of the questions asked in LPCS are the same as those asked in CSEW, however as the methodologies used differ direct comparisons cannot be made.
- 3.33 Confidence in policing and other community safety services, as measured through CSEW has fallen compared to the previous reporting period, with respondents less likely to feel that the police are dealing with local concerns, less likely to feel that multi

agency working is successfully dealing with local concerns and less likely to feel that the police in their local area are doing a good or excellent job.

3.34 For two of the confidence questions Cleveland rates below the Most Similar Group average, although for the key confidence question relating to multi agency response to local concerns, Cleveland’s position has risen slightly to 22<sup>nd</sup> in the country, ranking slightly higher than the Most Similar Group average. This still falls well below previous years when Cleveland consistently ranked in the top three forces in the country. The table below shows further details of the results of CSEW:

	<b>12 months to Sep 2014</b>	<b>12 months to Sep 2013</b>	<b>Diff (% pts)</b>	<b>MSG Average</b>	<b>Diff (% pts)</b>	<b>MSG Rank</b>	<b>National Position</b>
Good/Excellent Job	59.9%	62.0%	-2.1	60.8%	-0.9	4	28
Dealing local concerns – police and agencies	60.4%	62.5%	-2.1	59.7%	+0.7	2	22
Dealing local concerns – police	59.8%	64.6%	-4.8	60.6%	-0.8	4	31

### 3.35 Victim Satisfaction Surveys

3.36 Victim Satisfaction Surveys are carried out by every Force as part of the Home Office performance requirements.

3.37 The surveys are conducted via telephone interview, with a mandatory framework of core questions, covering:

- Satisfaction with the whole experience (i.e. the overall service provided)
- Satisfaction with:
  - First contact – making contact with the police
  - Action taken by the police
  - Follow-up – being kept informed of progress
  - Treatment by staff

3.38 The surveys are conducted by a third party independent market research company, and cover victims of four specific crime types - domestic burglary, vehicle crime, violent crime and racist incidents.

3.39 When comparing interviews conducted between January and December 2014 with the previous year there has been a fall in confidence in all areas, with significant reductions in confidence with the whole victim experience and in the follow up actions taken by officers.

3.40 The Force remains below the Most Similar Group average for all measures, ranking bottom of its group in the areas of follow up, treatment by officers and staff and confidence in the whole victim experience. The table below shows further details of the results of Victim Satisfaction Surveys:

	<b>12 months ending Dec 2014</b>	<b>12 months ending Dec 2013</b>	<b>Diff (% pts)</b>	<b>MSG Average</b>	<b>Diff (% pts)</b>	<b>MSG Rank</b>	<b>National Position</b>
Whole experience	78.2%	89.1%	-10.9	86.1%	-7.9	6	36
Ease of contact	94.7%	98.0%	-3.3	96.2%	-1.5	4	24
Actions	78.7%	85.4%	-6.7	82.4%	-3.7	3	29
Follow up	67.9%	81.3%	-13.4	78.1%	-10.2	6	40
Treatment	88.6%	94.8%	-6.1	94.3%	-5.7	6	41
