

## **Report of the Police and Crime Commissioner for the Performance Scrutiny Panel 22<sup>nd</sup> May 2015**

**Executive & Presenting Officer:  
Sarah Wilson - Governance Officer (Consultation and Engagement)**

**Status: For Action**

### **Consultation Report**

#### **1. Purpose of the Report**

- 1.1 Both the Force and Police and Crime Commissioner (PCC) have a clear duty to consult with local communities as set out in several pieces of legislation. Duties which were previously placed upon Police Authorities have been transferred to the PCC. The Police Reform and Social Responsibility Act expands upon these duties, stating that the PCC has a duty to make arrangements for obtaining:
- the views of victims of crime in that area about matters concerning the policing of the area
  - before a police and crime plan is issued, the views of the people in that police area, and the views of the victims of crime in that area, on that plan
  - the views of the people in that police area, and the relevant ratepayers' representatives, on the proposals of the police and crime commissioner for expenditure in that financial year
- 1.2 In addition the Act places a duty on the Chief Constable to make arrangements for:
- obtaining the views of persons within each neighbourhood in the relevant police area about crime and disorder in that neighbourhood
  - providing persons within each neighbourhood in the relevant police area with information about policing in that neighbourhood
  - the holding in each neighbourhood of regular police and community ward meetings
- 1.3 This report details the results of consultation undertaken by the PCC and Force during the last 12 months.

## **2. Executive Summary**

- 2.1 Integrated Neighbourhood Teams hold public meetings in all of Cleveland's 79 wards to assist in setting neighbourhood priorities. By far the most common issue raised is antisocial behaviour, predominantly in the form of underage drinking and groups congregating, especially around shops and in open areas such as parks. Drugs are also raised as a concern across all four Local Policing Areas.
- 2.2 Off road motorbikes are a particular concern in Redcar and Cleveland, and theft is a particular concern across Stockton.
- 2.3 The priorities generally focus on antisocial behaviour and low level criminal offences. More serious offences mentioned are prostitution in Middlesbrough and domestic burglary in Redcar and Cleveland and Stockton.
- 2.4 More strategic issues tended to be raised with the PCC at meetings he attended, with the main area of focus being concern around neighbourhood policing numbers, with many communities feeling that they were receiving a reduced neighbourhood policing service with more abstractions from neighbourhoods and reduced staffing numbers. This was particularly apparent in lower crime areas. Many residents felt that neighbourhood teams were now acting as a 'second tier response' and that engagement with local communities had reduced as a result of this. Diversionary and preventative work with young people was seen to have reduced, and slow response times were also mentioned as a concern.
- 2.5 Some residential communities felt that there was too much focus on retail areas to the detriment of their local communities.
- 2.6 Considerable concern was raised regarding the impact of budget cuts on neighbourhood policing and on other front line resources, particularly where this has led to alterations in service, such as with the Air Support Unit.
- 2.7 Public confidence in policing, as measured through the Local Public Confidence Survey, had risen slightly in most areas when compared to the previous year's survey results. Those surveyed in the last year were more likely to feel that the police were dealing with local concerns, and also more likely to feel that the police were doing a good or excellent job, although they were slightly less likely to have overall confidence in the police within their local area.
- 2.8 The percentage of people who felt that there was a high level of antisocial behaviour in their area had fallen, as had the proportion of people who felt that their quality of life was affected by fear of crime.
- 2.9 Confidence in policing and other community safety services, as measured through the Crime Survey for England and Wales had risen slightly compared to the previous reporting period, with respondents more likely to feel that multi agency working is successfully dealing with local concerns, more likely to feel that the police in their local

area are doing a good or excellent job, and more likely to have overall confidence in the police, although slightly less likely to feel that the police in isolation are dealing with local concerns

- 2.10 For all of the confidence questions Cleveland rates above the Most Similar Group average, ranking second or third place of six Forces in the group.
- 2.11 Victim satisfaction as measured through Victim Satisfaction Surveys had fallen for all measures, with the greatest reduction being in confidence with the follow up actions taken by officers. Cleveland remains below the Most Similar Group average for all measures, ranking bottom of its group in the areas of follow up, treatment by officers and staff and confidence in the whole victim experience, and bottom across England and Wales in the area of treatment by officers and staff.

### **3 Overall Consultation Results**

#### **3.1 Neighbourhood Ward Priorities**

- 3.2 Integrated Neighbourhood Teams hold a series of regular meetings with their local communities. These range from structured meetings such as Community Councils, which may also involve other partner agencies, to more informal drop-ins and ward surgeries.
- 3.3 Each Integrated Neighbourhood Team establishes a set of local ward priorities, which are reviewed and updated regularly. The priorities reflect both the opinions of the public, as gathered through engagement meetings, together with officer knowledge of the local area.
- 3.4 Details of the current ward priorities for all 79 Cleveland wards are at Appendix 1. By far the most common issue raised is antisocial behaviour, predominantly in the form of underage drinking and groups congregating, especially around shops and in open areas such as parks. Drugs are also raised as a concern across all four Local Policing Areas.
- 3.5 Off road motorbikes are a particular concern in Redcar and Cleveland, and theft is a particular concern across Stockton.
- 3.6 The priorities generally focus on antisocial behaviour and low level criminal offences. More serious offences mentioned are prostitution in Middlesbrough and domestic burglary in Redcar and Cleveland and Stockton.
- 3.7 The majority of the priorities remain the same since the last report.

### 3.8 Your Force Your Voice

- 3.9 The PCC has made a commitment to visit neighbourhood meetings in all 79 ward areas across Cleveland on an annual basis, in an initiative entitled 'Your Force Your Voice'. Details of the issues raised at each meeting attended are at Appendix 2.
- 3.10 Both Middlesbrough and Redcar and Cleveland have structured multi agency community meetings at a ward level which the PCC has attended – Community Councils and Neighbourhood Action Partnerships respectively. Within Hartlepool and Stockton the meetings have tended to be established residents meeting which the Integrated Neighbourhood Teams attend when they are available.
- 3.11 Issues raised at the 'Your Force Your Voice' meetings are split between localised issues, as highlighted through the police ward meetings, and more strategic issues which the community have wished to raise with the PCC. Where localised issues were raised these were generally dealt with at the meeting by the neighbourhood officers present. Any issues not dealt with at the meeting were directed to the police for action following the meetings.
- 3.12 The most commonly raised strategic issue was concern around neighbourhood policing numbers, with many communities feeling that they were receiving a reduced neighbourhood policing service with more abstractions from neighbourhoods and reduced staffing numbers. This was particularly apparent in lower crime areas. Many residents felt that neighbourhood teams were now acting as a 'second tier response' and that engagement with local communities had reduced as a result of this. Diversionary and preventative work with young people was seen to have reduced, and slow response times were also mentioned as a concern.
- 3.13 Some residential communities felt that there was too much focus on retail areas to the detriment of their local communities.
- 3.14 Concern was raised regarding the impact of budget cuts on neighbourhood policing and on other front line resources, particularly where this has led to alterations in service, such as with the Air Support Unit.
- 3.15 Issues were raised in several meetings around a reduction in information received through Neighbourhood Watch, particularly in the Redcar and Cleveland area.
- 3.16 There was interest in specific police initiatives including the recruitment of police constables and the relocation of Force Headquarters from Ladgate Lane. The public were generally supportive of the introduction of Restorative Justice.
- 3.17 There was some concern over the non emergency 101 number with issues reported of phones not being answered at weekends and concern as to the cost of calls.
- 3.18 The community issues raised varied greatly, covering speeding, problematic parking, especially around schools, off road bikes, antisocial behaviour, including youth

nuisance and problem tenants, drug dealing and criminal damage. In general the community issues raised were already neighbourhood policing priorities, or failing this the police were aware and were undertaking actions to resolve.

### 3.19 Local Public Confidence Survey

3.20 The Local Public Confidence Survey (LPCS) is a joint PCC and Force survey which is conducted via telephone interview by a third party independent market research company. The aim of the survey is to measure public confidence and to understand the factors associated with it.

3.21 Between April 2014 and March 2015 a total of 2445 interviews were conducted with a random selection of residents from across the Force area, providing a statistically significant and representative baseline sample from each of the four Local Policing Areas.

3.22 When comparing interviews conducted between April 2014 and March 2015 with the previous year there has been a slight increase in public confidence in most areas. Those surveyed in the last year were more likely to feel that the police were dealing with local concerns, and also more likely to feel that the police were doing a good or excellent job, although they were slightly less likely to have overall confidence in the police within their local area.

3.23 The percentage of people who felt that there was a high level of antisocial behaviour in their area had fallen, as had the proportion of people who felt that their quality of life was affected by fear of crime.

3.24 The table below shows further details of the results of LPCS:

	<b>12 months ending March 2015</b>	<b>12 months ending March 2014</b>	<b>Difference (% points)</b>
Public Confidence	83.8%	84.4%	-0.7
Good/Excellent Job	64.7%	64.1%	+0.5
Dealing with local concerns	70.0%	69.8%	+0.1
Fear of crime & quality of life	16.3%	17.3%	-0.9
Perceptions (ASB)	5.2%	6.1%	-0.8

### 3.25 Crime Survey for England and Wales

3.26 The Crime Survey for England and Wales is a national face to face survey which asks people about crimes they have experienced in the last 12 months, their perception of crime, their quality of life and the services delivered by the Criminal Justice System. Results are available at Force level only.

- 3.27 The survey collects information about:
- the victims of crime
  - the circumstances in which incidents occur
  - the behaviour of offenders in committing crimes
- 3.28 The survey is also an important source of information about other topics, such as people’s perceptions of antisocial behaviour, attitudes towards the criminal justice system, including the police and the courts and fear of crime.
- 3.29 CSEW interviews are conducted on a rolling 12 months basis, with the latest results available dating back to December 2014. Many of the questions asked in LPCS are the same as those asked in CSEW, however as the methodologies used differ direct comparisons cannot be made.
- 3.30 Confidence in policing and other community safety services, as measured through CSEW has risen slightly compared to the previous reporting period, with respondents more likely to feel that multi agency working is successfully dealing with local concerns, more likely to feel that the police in their local area are doing a good or excellent job, and more likely to have overall confidence in the police, although slightly less likely to feel that the police in isolation are dealing with local concerns.
- 3.31 For all of the confidence questions Cleveland rates above the Most Similar Group average, ranking second or third place of six Forces in the group. The table below shows further details of the results of CSEW:

	<b>12 months to Dec 2014</b>	<b>12 months to Dec 2013</b>	<b>Diff (% pts)</b>	<b>MSG Average</b>	<b>Diff (% pts)</b>	<b>MSG Rank</b>	<b>National Position</b>
Good/Excellent Job	61.0%	59.5%	1.5	60.1%	0.9	2	22
Dealing local concerns – police and agencies	61.1%	60.2%	0.9	59.0%	2.1	2	19
Dealing local concerns – police	60.0%	60.8%	-0.8	59.4%	0.6	3	29
Overall confidence in police	73.9%	70.3%	3.6	73.6%	0.3	3	28

3.32 Victim Satisfaction Surveys

3.33 Victim Satisfaction Surveys are carried out by every Force as part of the Home Office performance requirements.

- 3.34 The surveys are conducted via telephone interview, with a mandatory framework of core questions, covering:
- Satisfaction with the whole experience (i.e. the overall service provided)
  - Satisfaction with:
    - First contact – making contact with the police
    - Action taken by the police
    - Follow-up – being kept informed of progress
    - Treatment by staff
- 3.35 The surveys are conducted by a third party independent market research company, and cover victims of four specific crime types - domestic burglary, vehicle crime, violent crime and racist incidents.
- 3.36 Between April 2014 and March 2015, telephone interviews were conducted amongst a random selection of 1526 victims of crime from across the whole Force area.
- 3.37 When comparing interviews conducted between April 2014 and March 2015 with the previous year there has been a fall in confidence in all areas, with the largest reduction being in confidence in the follow up actions taken by officers, which had dropped 8.7 percentage points.
- 3.38 The Force remains below the Most Similar Group average for all measures, ranking bottom of its group in the areas of follow up, treatment by officers and staff and confidence in the whole victim experience, and bottom across England and Wales in the area of treatment by officers and staff. The table below shows further details of the results of Victim Satisfaction Surveys:

	<b>12 months ending March 2015</b>	<b>12 months ending March 2014</b>	<b>Diff (% pts)</b>	<b>MSG Average</b>	<b>Diff (% pts)</b>	<b>MSG Rank</b>	<b>National Position</b>
Whole experience	79.0%	85.0%	-6.0	85.5%	-6.5	6	38
Ease of contact	95.4%	97.0%	-1.7	95.9%	-0.5	4	22
Actions	76.2%	83.7%	-7.5	81.5%	-5.3	4	34
Follow up	66.1%	74.8%	-8.7	76.8%	-10.7	6	42
Treatment	88.3%	93.1%	-4.8	93.7%	-5.4	6	43
