Source Data

- Value for money dashboards ([Value for money dashboards - His Majesty's Inspectorate of Constabulary and Fire & Rescue Services](#)) provide comparative data on a wide range of policing activities from 2011 to 2024.
- Cleveland Police were compared against all national forces, as well as its most similar group (MSG):
 - Northumbria
 - West Yorkshire
 - Humberside
 - Greater Manchester
 - Merseyside
- All forces, including the Metropolitan Police Service and City of London Police, were included in the analysis.
- Costs shown are true values; area costs adjustments were not applied.
- In some areas, comparisons to last year's data cannot be made as the most recent profiles do not include the same level of detail – further updates will be provided if/when this data becomes available.
- Between 2010 and 2020, Enabling Services in Cleveland were contracted out to Sopra Steria.

Policing **Cleveland** Together

Spend per Capita

- Across all forces, Cleveland demonstrated the 4th highest net revenue expenditure (NRE) per capita. This is down one place since last year.
- MSG forces came 2nd, 9th, 10th, 11th and 15th of the 43 forces, as indicated by the light blue arrows:

Policing **Cleveland** Together

Cost Outliers

The following slides provide more detailed information on the functions (sub-objectives) where Cleveland is considered a **cost outlier**, spending significantly more or less than other forces.

A cost outlier is identified where the NRE per population is **over £1 more**, or **over £1 less**, than the national average.

Cleveland is a cost outlier in 41 areas (3 more than last year). For reference, the number of outliers in MSG forces is as follows:

Force	No. of outliers
Northumbria	24
West Yorkshire	29
Humberside	29
Greater Manchester	31
Merseyside	33

The tables on the next slides show these sub-objectives in order of **highest** variance in spend per population to **lowest**, followed by a breakdown of these outliers by objective and subjective.
